

# Colt now has Binding Corporate Rules (BCRs)

## What are BCRs?

- They are the highest privacy compliance standard, meaning we can offer the best data protection assurance in the world
- Colt BCRs cover both our activities as a Data Controller and as a Data Processor
- We're the first telco in post-GDPR history to have approved BCRs
- As of the beginning of 2022, only 20 companies have BCRs in post-GDPR history and only 9 of have them for both Controller and Processor
- This is a unique certification, approved by the government and recognised by 21 data protection authorities and the European Data Protection Board

## The main benefits of BCRs are...

- They are a gold standard Certification in Data Protection Compliance
- They certify privacy practices expressly approved by the EU
- They guarantee 100% trust from customer and regulators

## BCRs help reduce

Risks

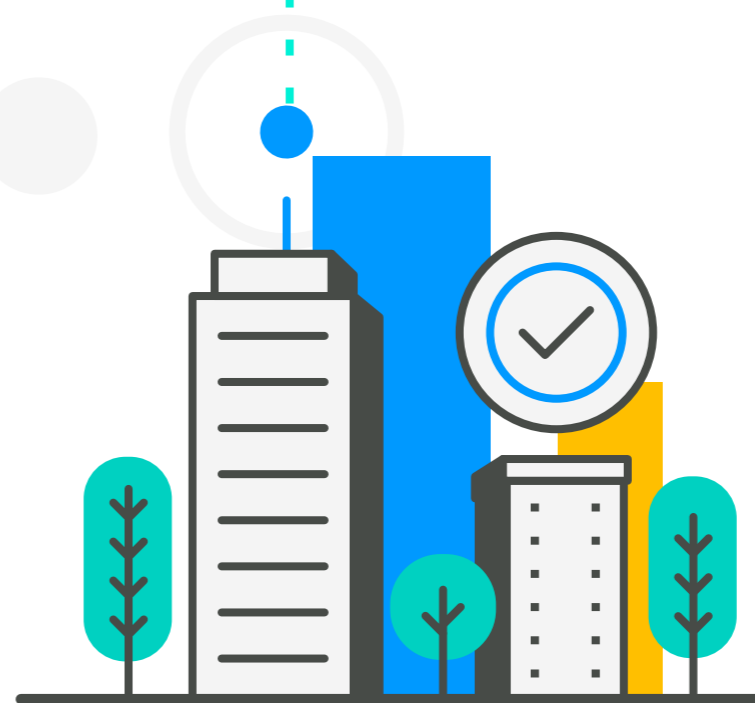

Costs

Revenue losses

Fines

## What does this mean for you?

- We act as one Colt company in data protection compliance, so no matter where you are in the world, your data will be handled with the highest standards by all Colt companies
- We're a visionary, and we're always looking ahead. BCRs future-proof our cross-border data transfers – to India, China and any new location where we do business
- Through our BCRs we can help customers who need to meet high-regulatory standards to avoid fines when it comes to their data
- There is complexity in transferring data on a worldwide scale, our BCRs prove that we can handle that complexity and you can be assured that your data is in safe hands
