Colt PrizmNet and Nasdaq market data services

Datasheets

Unlocking value from Nasdaq connectivity?

✓ Global reach

Colt PrizmNet connects you to the world's leading global exchanges and trading venues, including direct access to Nasdaq US. This extended reach gives you the flexibility to trade seamlessly across regions and access high value-market data with confidence. Whether you're focused on Nasdaq or operating across multiple markets, Colt ensures you stay connected to what matters the most

✓ High resiliency and disaster recovery

Colt's infrastructure is built for uninterrupted access to Nasdaq market data and trading services, even in the face of unexpected disruption. With robust disaster recovery, PrizmNet ensures your Nasdaq connectivity remains secure, stable and always on

✓ Seamless connectivity and service monitoring

Powered by Colt's proprietary Market Data Monitoring System (MMS), our solution delivers low-latency, real-time insights into service performance, ensuring seamless market data feed analysis and usage across the PrizmNet network

Accelerate your access to Nasdaq with Colt PrizmNet

The U.S. equity markets represent 42.6% of the $115.0 trillion in global equity market cap, or $49.0 trillion; this is 3.9x the next largest market, the EU. With U.S. fixed-income markets comprising 39.3% of the $140.7 trillion securities outstanding across the globe, this is also 2.1x larger than the EU market. Entities worldwide—whether in the EU, Asia, or the Americas need secure, resilient, and always-on access to this dynamic trading ecosystem. That's why Colt PrizmNet delivers direct, high-performance connectivity to Nasdaq, empowering firms to capitalise on the depth, and speed of one of the world's most influential markets.

Colt's PrizmNet is a financial extranet, built to deliver secure, resilient and ultra- low-latency, connectivity to global capital markets. Through Colt's network, customers gain direct access to key Nasdaq services including TotalView ITCH, Level 2 (NQDS) and Global Index Data Service (GIDS) – empowering real time trading, analytics and decision making with speed and accuracy.

## Nasdaq US services available via PrizmNet
