Unlock the potential of effortless integrations using Operator Connect for Microsoft Teams

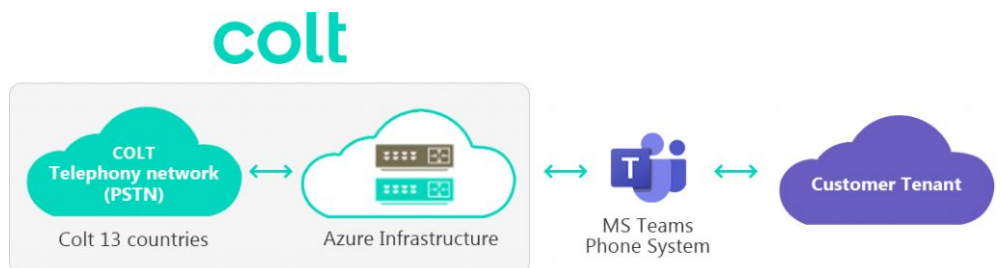

Operator Connect for your Customers

Offer your customers voice activation on Microsoft Teams with Colt, a Microsoft certified Operator Connect partner, allowing them to improve productivity and collaboration. All without the high levels of investment typically needed to create this solution.

Modern Work

You can trust that your customers are in safe hands with our Microsoft Teams experts. Our solution is integrated and enables **Full digital administration**. Numbers will be available in the Microsoft Teams Admin Center and can be assigned in just a few clicks. Offering **high quality voice** calls by using Colt's best in class, fully compliant voice network. All with a simple consumption based pricing model.

Simplify Expanding your Service

Colt's Intelligent Communications for resellers is available across our Pan-European footprint, where you work with us as a single partner, so you can focus on your business instead of dealing with the challenges of managing multiple providers.

Reselling Operator Connect

Colt gives you the scalability, and transparency you need, to manage your end customers, all in one portal available 24/7.

Order, activate and follow up the status of your DDIs. Review the CDRs and your invoices anytime with just a few clicks.
